

Vikram Rathore

Backend Developer — Java & Spring Boot

Hyderabad, India | vikram.rathore.dev@gmail.com | +91 96789 01234 | linkedin.com/in/vikramrathore | github.com/vikramrathore

PROFESSIONAL SUMMARY

Backend Developer with 6 years of experience building enterprise-grade microservices in Java and Spring Boot for the banking and insurance sectors. Strong expertise in distributed systems, message queues, and secure API design.

TECHNICAL SKILLS

Languages: Java, SQL

Frameworks: Spring Boot, Spring Security, Spring Data JPA, Hibernate

Databases: Oracle DB, PostgreSQL, MongoDB

Tools: Kafka, Docker, Kubernetes, Jenkins, Maven, JUnit, Git

PROFESSIONAL EXPERIENCE

Senior Backend Developer — Fidelis Banking Solutions

Hyderabad, India | Feb 2021 – Present

- Designed and maintained 10+ Spring Boot microservices for a core banking platform processing 1M+ transactions daily.
- Implemented event-driven communication between services using Apache Kafka, improving system decoupling.
- Enforced OAuth2/JWT-based security across all APIs with Spring Security, passing external security audits.
- Reduced average API latency by 38% through JVM tuning and query optimization with Hibernate.
- Mentored a team of 4 junior developers and led code reviews to maintain high code quality standards.

Backend Developer — Prime Insurance Technologies

Hyderabad, India | Aug 2018 – Jan 2021

- Built claims-processing REST APIs using Spring Boot and Spring Data JPA.
- Migrated a monolithic application to a microservices architecture using Docker and Kubernetes.

PROJECTS

PolicyHub — Insurance Microservices | Spring Boot, Kafka, PostgreSQL, Docker

- Built a policy-management microservice suite with event sourcing via Kafka.

EDUCATION

B.Tech in Computer Science and Engineering — Osmania University

Hyderabad, India | 2014 – 2018

CERTIFICATIONS

Oracle Certified Professional: Java SE Developer • Certified Kubernetes Application Developer (CKAD)
