PROFESSIONAL SUMMARY

DevOps Engineer with 5 years of experience automating infrastructure and deployment pipelines on AWS. Skilled in Infrastructure as Code, CI/CD design, and building highly available, cost-optimized cloud architectures.

TECHNICAL SKILLS

Cloud: AWS (EC2, S3, RDS, Lambda, VPC, IAM, CloudWatch)

IaC & Config: Terraform, CloudFormation, Ansible

CI/CD: Jenkins, GitHub Actions, AWS CodePipeline

Containers/Scripting: Docker, Kubernetes (EKS), Bash, Python

PROFESSIONAL EXPERIENCE

DevOps Engineer — Cloudverse Systems

Gurugram, India | Mar 2021 – Present

- Designed and maintained Terraform modules provisioning AWS infrastructure for 20+ microservices.
- Built CI/CD pipelines with Jenkins and GitHub Actions, cutting average deployment time from 45 to 8 minutes.
- Migrated workloads to Amazon EKS, improving resource utilization and cutting compute costs by 25%.
- Set up centralized monitoring and alerting with CloudWatch and Grafana, reducing mean time to detect incidents by 40%.
- Implemented least-privilege IAM policies and automated security scanning, passing all quarterly compliance audits.

Systems Engineer — Nexbridge IT Services

Gurugram, India | Jul 2019 – Feb 2021

- Automated server provisioning and configuration management using Ansible playbooks.
- Maintained on-premise and AWS hybrid infrastructure for internal enterprise applications.

PROJECTS

Self-Healing Infra Toolkit | Terraform, AWS Lambda, CloudWatch

- Built automated remediation scripts that restart or replace unhealthy EC2 instances based on CloudWatch alarms.

EDUCATION

B.Tech in Information Technology — Guru Gobind Singh Indraprastha University

Delhi, India | 2015 – 2019

CERTIFICATIONS

AWS Certified DevOps Engineer – Professional • AWS Certified Solutions Architect – Associate • HashiCorp Certified: Terraform Associate
