

Ishaan Kapoor

Backend Developer — Go (Golang)

Gurugram, India | ishaan.kapoor.dev@gmail.com | +91 95678 01236 | linkedin.com/in/ishaankapoor | github.com/ishaankapoor

PROFESSIONAL SUMMARY

Backend Developer with 4 years of experience building high-throughput, low-latency services in Go for fintech and logistics platforms. Experienced in concurrent programming, gRPC APIs, and building resilient distributed systems.

TECHNICAL SKILLS

Languages: Go (Golang), SQL, Python

Frameworks/Libraries: Gin, gRPC, GORM

Databases: PostgreSQL, Redis, Cassandra

Tools: Docker, Kubernetes, Kafka, Prometheus, Grafana, Git

PROFESSIONAL EXPERIENCE

Backend Developer — Routewise Logistics

Gurugram, India | Jun 2022 – Present

- Built high-performance route-optimization services in Go handling 500+ requests per second at peak load.
- Designed gRPC APIs for inter-service communication, reducing payload size by 60% compared to prior JSON REST setup.
- Implemented goroutine-based concurrent processing for batch shipment updates, cutting processing time by 70%.
- Set up Prometheus and Grafana dashboards for service health monitoring, reducing incident response time by 50%.

Software Engineer — PayNext Fintech

Gurugram, India | Jul 2020 – May 2022

- Developed transaction-processing microservices in Go with PostgreSQL and Redis caching.
- Wrote extensive unit tests and used table-driven testing patterns, achieving 90%+ coverage on core packages.

PROJECTS

QueueWorker — Distributed Job Processor | Go, Kafka, Redis, Docker

- Built a distributed background job processor with retry logic and dead-letter queues.

EDUCATION

B.Tech in Computer Science — Delhi Technological University

Delhi, India | 2016 – 2020

CERTIFICATIONS

Certified Kubernetes Administrator (CKA) • Go: The Complete Developer's Guide (Udemy)
