

Manish Pandey

DevOps / Platform Engineer — Kubernetes & Docker

Bengaluru, India | manish.pandey.k8s@gmail.com | +91 97123 45602 | linkedin.com/in/manishpandey | github.com/manishpandey

PROFESSIONAL SUMMARY

Platform Engineer with 4 years of experience designing and operating Kubernetes-based container platforms at scale. Deep expertise in cluster architecture, service mesh, and building internal developer platforms that improve engineering velocity.

TECHNICAL SKILLS

Container Orchestration: Kubernetes, Docker, Helm, Kustomize

Service Mesh/Networking: Istio, NGINX Ingress, Calico

CI/CD & GitOps: ArgoCD, GitLab CI, Jenkins

Cloud & Monitoring: GCP (GKE), AWS (EKS), Prometheus, Grafana

PROFESSIONAL EXPERIENCE

Platform Engineer — Kinetic Cloud Systems

Bengaluru, India | Jun 2022 – Present

- Operated multi-tenant Kubernetes clusters on GKE and EKS supporting 40+ engineering teams.
- Implemented GitOps workflows with ArgoCD, reducing manual deployment errors and improving release traceability.
- Rolled out Istio service mesh for traffic management and mTLS between services, improving security posture.
- Built Helm charts and internal developer templates, cutting new-service onboarding time from days to hours.
- Set up Prometheus/Grafana monitoring stack with custom alerts, reducing production incident resolution time by 35%.

DevOps Engineer — Applied Systems Technologies

Bengaluru, India | Jul 2020 – May 2022

- Containerized 15+ legacy applications with Docker and migrated them to a Kubernetes cluster.
- Built CI pipelines with GitLab CI for automated testing and image builds.

PROJECTS

Internal Developer Platform CLI | Kubernetes, Helm, Go

- Built a CLI tool that scaffolds new microservices with pre-configured Helm charts and CI templates.

EDUCATION

B.E. in Computer Science — Visvesvaraya Technological University

Bengaluru, India | 2016 – 2020

CERTIFICATIONS

Certified Kubernetes Administrator (CKA) • Certified Kubernetes Security Specialist (CKS)
