

Simran Kaur

Frontend Developer — Angular

Chandigarh, India | simran.kaur.ng@gmail.com | +91 91234 56780 | linkedin.com/in/simrankaur | github.com/simrankaurdev

PROFESSIONAL SUMMARY

Angular Frontend Developer with 5 years of experience delivering enterprise-grade web applications for finance and healthcare clients. Strong expertise in RxJS, NgRx state management, and building accessible, modular UI components at scale.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, HTML5, CSS3

Frameworks: Angular (v12–v17), RxJS, NgRx, Angular Material

Testing: Jasmine, Karma, Cypress

Tools: Nx Monorepo, Git, Azure DevOps, SonarQube, Postman

PROFESSIONAL EXPERIENCE

Senior Frontend Developer — Meridian Health Systems

Chandigarh, India | Mar 2021 – Present

- Led migration of a legacy AngularJS application to Angular 16 across a 4-person team, reducing runtime errors by 45%.
- Architected NgRx-based state management for a patient records module used by 10,000+ daily users.
- Implemented WCAG 2.1 AA accessibility standards, passing all client compliance audits.
- Set up an Nx monorepo to share UI components across 3 Angular applications, cutting duplicate code by 30%.
- Mentored 3 junior developers on RxJS patterns and reactive forms best practices.

Frontend Developer — Vertex Financial Software

Chandigarh, India | Jul 2018 – Feb 2021

- Built dashboards for a banking analytics platform using Angular and Angular Material.
- Implemented lazy-loaded feature modules, reducing initial bundle size by 33%.
- Wrote unit tests with Jasmine/Karma, maintaining over 80% code coverage.

PROJECTS

ExpenseTrack — Personal Finance Dashboard | Angular, NgRx, Chart.js

- Developed an expense visualization dashboard with reactive forms and NgRx-managed state.

EDUCATION

B.E. in Computer Science — Panjab University

Chandigarh, India | 2014 – 2018

CERTIFICATIONS

Angular — The Complete Guide (Udemy) • Microsoft Certified: Azure Fundamentals
