

Tanvi Rao

NLP Engineer

Bengaluru, India | tanvi.rao.nlp@gmail.com | +91 98012 34567 | linkedin.com/in/tanvirao | github.com/tanvirao

PROFESSIONAL SUMMARY

NLP Engineer with 4 years of experience building text classification, entity extraction, and conversational AI systems. Skilled in fine-tuning transformer models and deploying NLP pipelines into production at scale.

TECHNICAL SKILLS

Languages: Python, SQL

NLP/ML Frameworks: spaCy, Hugging Face Transformers, NLTK, PyTorch

Techniques: Named entity recognition, text classification, topic modeling, embeddings

MLOps/Tools: Docker, MLflow, FastAPI, Git, AWS SageMaker

PROFESSIONAL EXPERIENCE

NLP Engineer — Lexicon AI Labs

Bengaluru, India | Jul 2022 – Present

- Fine-tuned BERT-based models for customer support ticket classification, improving routing accuracy from 78% to 93%.
- Built a named entity recognition pipeline with spaCy to extract product and issue mentions from support chats.
- Deployed NLP models as REST services with FastAPI and Docker, serving 50,000+ predictions daily.
- Tracked experiments and model versions with MLflow, streamlining collaboration across a 4-person ML team.
- Reduced inference latency by 35% through model quantization and batching strategies.

Machine Learning Engineer — Verbalize Technologies

Bengaluru, India | Jun 2020 – Jun 2022

- Built a topic modeling pipeline using LDA and embeddings to categorize customer feedback at scale.
- Developed sentiment analysis models achieving 88% accuracy on a proprietary review dataset.

PROJECTS

SupportBot — FAQ Chatbot | Hugging Face Transformers, FastAPI, Docker

- Built a semantic-search-based FAQ chatbot using sentence embeddings and a fine-tuned retrieval model.

EDUCATION

M.Tech in Computer Science (AI Specialization) — Indian Institute of Science

Bengaluru, India | 2018 – 2020

B.E. in Computer Science — BMS College of Engineering

Bengaluru, India | 2014 – 2018

CERTIFICATIONS

DeepLearning.AI NLP Specialization • AWS Certified Machine Learning – Specialty
