SUMMARY

Results-driven Full Stack Web Developer with expertise in JavaScript, React, and Node.js . Proven ability to develop responsive applications and create comprehensive technical documentation. Proficient in integrating AI into projects using LLM calls and prompting.

SKILLS

- JavaScript
- HTML and CSS
- Express.js
- Python
- Database Management
- Technical Documentation
- React
- Node.js
- MongoDB
- Object-oriented programming
- Git and GitHub

EDUCATION

Bachelor of Engineering - Civil Engineering

Jadavpur University

Nov 2024

Kolkata, West Bengal

Higher Secondary Education - Science(PCM)

St. Patrick's Higher Secondary School

May 2024

Asansol, West Bengal

EXPERIENCE

Full Stack Web Developer Intern

CodeAlpha

Nov 2025 - Dec 2025

Kolkata, West Bengal

- Developed responsive full stack web applications using mongodb, express, react and node.js.
- Debugged and resolved issues in various web applications to enhance performance.
- Tested websites across multiple browsers to ensure compatibility and responsiveness.
- Created technical documentation of all projects developed during internship period.

Hackathon Participant

HackHazards 2025

Apr 2025 - May 2025

Kolkata, West Bengal

- Collaborated in a team of 4 developers to build a blockchain-based Scholarship Portal utilizing smart contracts for transparent and secure scholarship management.
- Developed frontend with React, integrating REST APIs for seamless data retrieval.
- Implemented user authentication using JWT and OAuth for secure access management.
- Used Git and GitHub for collaborative development and version control.

PROJECTS

ET Story Arc Tracker | React, Express, Node, MongoDB and Groq | March 2026 | [Live Demo](#)

- Designed and implemented a 3-agent AI pipeline that transformed live news into structured, personalized insights using Llama models and intelligent model routing.
- Engineered a full-stack React and Node.js application featuring REST APIs, CORS-secured requests, and multi-platform deployment.
- Designed and built a multi-turn chat system with conversation persistence, typing indicators, and hook-based state management.
- Integrated Tavily Search API with caching, fallback mechanisms, and robust error handling for reliable real-time news ingestion.

CityPulse | React, Express, Node, MongoDB and Groq | May 2026 - June 2026 | [Live Demo](#)

- Architected and developed an end-to-end city exploration platform, from geospatial data ingestion to responsive frontend experiences.
- Engineered location-based search, category filtering, and interactive map visualization using OpenStreetMap APIs and React.
- Deployed and maintained a production-ready full-stack application on Vercel and Render with secure backend integration.

CERTIFICATIONS

- ET-GenAI Hackathon Top Team Certificate - Economic Times of India, Issued 2026
- Vibe Coding with Google AI Studio - Digital Dominators, Issued 2026
- AI Tools and ChatGPT Workshop - be10X, Issued 2025
